Lisa Thompson is a US Army Senior Systems Engineer with 22+ years of systems engineering and program management experience within both Government and Industry in the areas of avionics and mission systems, training systems, and open architecture. She holds a Bachelor's Degree in Aerospace Engineering and a Master's Degree in Systems Engineering. Lisa's responsibilities include engineering leadership of the Synthetic Training Environment Live Training System (STE LTS) Increment 1, Middle Tier Acquisition Rapid Prototyping and Rapid Fielding. Lisa has participated in the FACE Consortium Steering Committee, Business and Technical Working Groups, and Enterprise Architecture (EA) Standing Committee in multiple roles since 2010. She currently serves as the Business Working Group Chair and previously served as the Co-Chair of the Conformance Subcommittee from 2012-2015. Lisa was a principal author of the Conformance Policy and the associated Conformance Program documents. She also participated in open architecture initiatives including Hardware Open Systems Technologies (HOST) and Functional Architecture for Strategic Reuse (FASTR) and currently supports open architecture initiatives for soldier training systems.
